

Restorations Windows and Sliding Doors help increase your home's comfort and energy efficiency. **Better yet, if you buy them now, you may qualify for a credit of 30% of the product cost up to \$1,500 on your Federal income tax.***

Details

As part of the Economic Stimulus package, the American Recovery and Reinvestment Act of 2009 modifies and extends federal tax credits for eligible building components that improve energy efficiency. To be eligible, windows and doors must have both a U-Factor equal to or less than 0.30 and a Solar Heat Gain Coefficient (SHGC) equal to or less than 0.30.

- Tax credit is for the cost of the product only and does not include installation costs. Be sure to ask for a sales receipt that shows the cost of the product only.
- Tax credit is 30% of the amount paid for the product, up to a maximum of \$1,500 combined for 2009 and 2010 (including other eligible items listed in the IRS Notice).**
- This is a new credit for 2009 and 2010.

How to Qualify for the Tax Credit**

1. Purchase a qualifying Restorations Window or Sliding Door with an approved glass package. The window or door must have both a U-Factor and SHGC of 0.30 or lower.*
2. Save your sales receipt and Manufacturer's Certification Statement with your tax documents.
3. Purchase and install qualifying products beginning January 1, 2009 through December 31, 2010, and meet all other requirements outlined in the Federal tax code.**
4. Claim the tax credit associated with your qualifying purchase during your Federal filing for the 2009 and/or 2010 tax year.

		Restorations Windows UltraCore Frame - Triple-Glazed, Krypton90, Low-E Product Type: Vertical Slider	
ENERGY PERFORMANCE RATINGS			
U-Factor (U.S./I-P)	Solar Heat Gain Coefficient	0.18	0.22
ADDITIONAL PERFORMANCE RATINGS			
Visible Transmittance	Air Leakage (U.S./I-P)	0.42	0.1
Condensation Resistance		70	
<small>Manufacturer stipulates that these ratings conform to applicable NFRC procedures for determining whole product performance. NFRC ratings are determined for a fixed set of environmental conditions and a specific product size. Consult manufacturer's literature for other product performance information. www.nfrc.org</small>			

*Many Restorations Windows products with approved glass packages will qualify when used for remodeling, replacement or home improvement. Please consult your tax planner and review all IRS guidelines. Restorations Windows is not a tax advisor.

**The above information is the best available information and is a partial summary of the revisions to the Federal tax code (U.S. Code Title 26, Section 25C) as updated by the American Recovery and Reinvestment Act of 2009. Taxpayers should check with the IRS regarding updates to the IRS interim guidance Notice 2006-26 for further details on the tax credit. Other energy efficient improvements may apply; check the following link and the IRS website for more details (<http://www.irs.gov/newsroom/article/0,,id=154657,000.html>). Sunrise Windows bears no responsibility in the validation of obtaining the tax credit. Please consult with a professional tax advisor or the IRS. Manufacturer's Certification Statement

February 17, 2009

This letter is to certify that Restorations Windows products with Ultra-U VSS or higher performing glass systems qualify in all 50 states and all climate zones for the Energy Tax Credit under the expanded Section 25C of the Internal Revenue Code as an "Eligible Building Envelope Component":

The U-Value and Solar Heat Gain Coefficient (SHGC) ratings are 0.30 or lower, complying with the amended Section 1121 of H.R. 1, the American Recovery and Reinvestment Act of 2009, enacted on February 17, 2009.
